Dear Sir:-

Re: Michael Bilinski,
7091 Hastings St., East,
North Burnaby, B.C.,
your file 53-762

I have your letter of the 1st April 1953, relative to your enquiry as to the age of the above named who is supposed to have applied for homestead entry for the S.E. 10-52-6-W4th Meridian.

In reply, I wish to inform you that we are unable to trace a record of entry under this name in the said district. We do, however, have a record of one Michael Bilinski, who in his sworn statement, dated the 24th February 1913, in support of his application for Patent for the N.W. 1/4 of 25-37-28-W2nd Meridian, Howell, Saskatchewan, he gave his age as 31 years. He was naturalized on the 10th January 1913.

This man applied for homestead entry for the said land on the 27th January 1910, and he gave his age as 27 years. He gave as his country of birth Austria Hungary, Subdivision of County of Birth Galacia. He also stated that his family consisted of his wife and four children.

Yours very truly,

C.E. LeCapelain,
Chief, Lands Division.

1. The first step is to identify the problem or question that needs to be answered.

~~1. The first thing I noticed when I stepped out of the plane was the cold air. It was a sharp contrast to the warm, humid air of the tropics. I shivered slightly, pulling my jacket closer. The ground below was a vast, flat expanse of green, dotted with small, dark patches. In the distance, a range of low, rolling hills could be seen under a pale, overcast sky. The silence was profound, broken only by the distant hum of a few birds. I took a deep breath, feeling the crisp air fill my lungs. It was a strange sensation, being so close to nature yet feeling so isolated. I looked down at my hands, which were slightly numb from the cold. I wondered how long it would take to get used to this new environment. The journey had been long and tiring, but the view from the plane was truly breathtaking. I felt a sense of adventure and excitement, knowing that I was about to embark on a new journey. The cold air was a challenge, but it was also a reminder of the beauty of the world. I smiled, feeling a sense of accomplishment and pride. The journey was over, but the memories would last a lifetime.~~

To The Honourable, The Minister of the Interior,
Ottawa, Ont.

Dear Sir:-

We, the undersigned Homesteaders, upon receiving patent for our respective homesteads, find that in each case there are a certain number of acres deducted from the full quarter. It would appear that the reason for this is, that in 1891 a survey was made of this township, and at that time what is known as Horse Fly Lake, contained more or less water. From what information we can gather, there does not seem to have been any water in this lake for the past 8 or 10 years, and for possibly a longer period. The Homestead Inspector for this District will confirm this statement.

At the time we made entry for our respective homesteads, we were not informed that the entry was not for a full quarter, and in each case we fenced, and in some cases, cleaned the rock from the lake bottom, with the intention of growing hay thereon. In the case of at least one of these homesteads, the deduction cuts the quarter section in two parts.

From the above it will be apparent to you, that the cutting down of the area of these homesteads will work considerable of a hardship, and it would appear that there is now no reason why we should not receive patents for the fractions cut off, inasmuch as there is not now and has not been for a number of years, any water in Horse Fly Lake.

Your attention to this matter will greatly oblige

Your Obedient Servants

Sir,

I beg to enclose herewith a petition signed by six settlers of Sections 10 and 15 in Township 9, Range 16, West of the 4th Meridian, requesting that the portions of their particular quarter sections deducted in account of the Horse Fly Lake be now added to their homesteads, as this Lake has now become dry land.

In this connection I might state that in conversation with Homestead Inspector Ripley to-day, he informs me that this Lake is now, and has been for years, dry land of very rocky surface.

APPLICATION FOR SUPPLEMENTARY PATENT.

I beg to submit the application of Mr. Carl Marose for supplementary letters patent covering the part of the S.E. 1/4 of Section 14, Township 9, Range 16, West of the 4th Meridian, shown on the original plan of survey as covered by water.

An Abstract of Title has been furnished showing the applicant to be the owner of the remainder of the land in the quarter section which was patented to him as a homestead in September, 1911.

The Surveyor General has reported as follows in this connection:-

"The new plan will show all of the lake as 'Former bed of Horse Fly lake now dry land.'

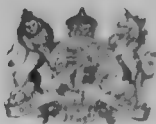

"If it is desired to quit claim any interest the Crown may have in the land formerly covered by the waters of this lake the plan to be noted is the one which was mentioned in the original patent."

There appears to be no objection to now issuing a supplementary patent in this case.

G. V. Ribchester.

The Minister.

I have discussed this case with Mr. Hime, who dictated the official letter of the 10th June, 1910, to the Agent of Dominion Lands, Edmonton, advising him of the terms of the sale to Mr. Ribchester. It is quite evident that we should not have exacted a monetary consideration in connection with this case, - the payment of £7.00 per acre was in lieu of the required licence of titles. Under these circumstances, I would respectfully suggest that you deal with this case as the correct letter had been written in the first place, and advise the Agent of Dominion Lands accordingly. This will enable the Controller of Land Patents to deal with the assignment under consideration.

Respectfully submitted,

1. We have $\lim_{n \rightarrow \infty} \frac{1}{n} \log \frac{1}{n} = 0$ and $\lim_{n \rightarrow \infty} \frac{1}{n} \log \frac{1}{n} = 0$.

What is the *best* way to do this? The answer is: it depends on the situation. For example, if you are working on a project that is very time-sensitive, you may want to use a more direct approach, such as a face-to-face meeting or a phone call. On the other hand, if you are working on a project that is less time-sensitive, you may want to use a more indirect approach, such as email or a written report.
